1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to an image forming apparatus and control method for the image forming apparatus wherein the image forming apparatus has a first detector for detecting amount of developer in the developing apparatus and a second detector for detecting utilized amount of developer based on image formation and a processor/judgement device for determining utilized amount of developer based on the first and second detector , classified in class 399, subclass 62.
- II. Claims 12-17, drawn to a developing apparatus having a memory for storing information regarding amount of utilized developer, classified in class 399, subclass 27.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as merely storing the amount of developer used so the image forming apparatus would know how much developer is in each developing device when different developing devices are interchanged. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
